

E-Mail for Students

Web Access

With aid of the web access, students can access their mails through an encrypted connection from any location.

The web access can be found here: <https://webmail.jade-hs.de/>

Remark: Please log into your account by typing in your short username (form: ab1xyz) and password.

Access via Devices within the Network System of Computers

With aid of the central [software deployment](#) on all devices integrated into the [network system of computers](#), products, which are configured for the instant use with your user data (e-mail-address, username), are provided. You can find them under the menu item "Kommunikation" (ENG: "Communication").

Access via Devices outside the Network System of Computers

Devices outside the [network system of computers](#) need to be equipped with an appropriate communication software. You have to install and configure it yourself.

Configuration Parameters for E-Mail Clients

Students can read their e-mails with any IMAP-capable e-mail client. Please configure this software with the following parameters:

- Account-Type: IMAP
- Inbox Server: imap.jade-hs.de
- Inbox-Server-Port: 143
- Encryption Method: (START-) TLS (accept all certificates)
- Outbox Server: smtp.jade-hs.de
- Outbox-Server-Port: 587
- Encryption Method: (START-) TLS (accept all certificates)
- Username: Short username (form: ab1xyz)
- Password: <Your Password>
- Outlook E-Mail Client
- Activate "The outbox server requires authentication" under "further settings" - "outbox

server”

- Adjust the ports and encryption as described above under “extended”

Forwarding E-Mails

Forwarding e-mails to other inboxes is not possible.
