

WebFiler

With the **Web File Manager (short: WebFiler)**, university members **within and outside the campus** can access the **data drives** of the Jade University **network system of computers**. This happens via webbrowser and a secured and encrypted connection. The web access is thought to look into and download data. It offers merely a restricted amount of comfort.

The **Web File Manager** can be reached under the following link: [WebFiler](#)
