

VPN

The university computing centre provides a VPN connection for Windows, Mac and Linux computers. Smartphones are not supported.

To use the VPN access, please download the necessary [Cisco AnyConnect VPN-Client](#).

Remark: The download solely works outside the university Wi-Fi. Please access the link externally.

After the installation of the VPN-Client, please start it and configure it in the following way:

- Server Address: vpn.jade-hs.de
- Username: Your username in the form <username>@hs-woe.de

The following operation systems are supported by the Cisco AnyConnect Client 4.5 (as at 12/2017):
