

# Digital Teaching Systems

The service group digital teaching systems of the [computing centre](#) deals with the systems that are used for teachings at the Jade University.

The service group offers the following services:

## image data base

The service is responsible for the use of the image database server. Further information you find [here](#).

## learning management

The service is responsible for the use of Moodle and Moving Image Systems. Further information you find [here](#).

## video conference

The service is for the support for the user when they use the video conference system. Further information you find [here](#).

## video plattform

The service is for the support of the user when they use the "Moving Image".
