

PC Technology

The PC technology service group of the [computing centre \(HRZ\)](#) deals with the installation, configuration, repair and maintenance of stationary and mobile business PCs and peripheral devices of the HRZ and the central facilities.

Furthermore, it is responsible for the IT components (computers, monitors, projectors) and the electrical wiring of the tables in the [pool rooms](#) operated and supervised by the computer centre.

The service group PC technology offers the following services:

E-Check

Implementation of the “e-check” and service measures on electronic components of the university computer centre. More information can be found [here](#).

Hard disk encryption

Implementation of hard disk encryption, especially for mobile PCs. Further information can be found [here](#).

Internetkiosk

Provision and maintenance of Internet kiosk systems.

PC Service

The PC service is responsible for the provision of operational stationery and mobile PCs for participation in all other IT services offered by the HRZ at the Jade University. More information can be found [here](#).

Repairs-Hardware

PC technology carries out hardware repairs on PCs, printers and plotters.

Repairs-Software

PC technology carries out repairs to software installations, e.g. caused by improper settings.

Virus protection and elimination

The PC technology is responsible for the installation of virus protection software and also carries out virus scans and their removal. More information can be found [here](#).
