

Clients

To use a virtual desktop you need

- a program for your PC / an app for your smartphone - a so-called software client **or**.
- a device that is able to access a virtual desktop - a so-called hardware client.

hardware-clients

- thin and zero clients (e.g. [Dell Wyse Clients](#), [Samsung Zero Client Monitor NC241](#))

Software clients

After installation and configuration of a software client (see below) you get access to all virtual desktops provided for you in [Pools](#) after login.

Microsoft Windows

VMware Horizon Client for Desktops:

- Go to the [virtual desktop environment at Jade University](#) web page.
- Click on "Install VMware Horizon Client."
- Download and install the software.

Once launched, configure the VMware Horizon Client for Desktops as follows:

- Horizon connection server:
 - **For students: vdi.jade-hs.de.**
 - **For staff: vd.jade-hs.de**
- Username: [default login](#) (form: ma1150)
- Password: <your password>
- Domain: HS-WOE

Apple macOS

VMware Horizon Client for Desktops:

- Go to the [VMware Horizon Clients](#) web page.
- In the "VMware Horizon Client for macOS" section, click "GO TO DOWNLOADS."
- Click on "DOWNLOAD NOW" and install the VMware Horizon Client.

After launching, configure VMware Horizon Client for desktops as follows:

- Confirm that you really want to open the app by clicking the "Open" button.
- Start remote USB and print services: click "Next".

- System extension blocked: Open the “Security” system setting
 - Click on the lock (bottom left) to edit.
 - Click the “Allow” button
 - Click on the lock again to protect it
 - Close the window
- Access to accessibility
 - Click the “OK” button
- Horizon Connection Server:
 - **For students: vdi.jade-hs.com.**
 - **For staff: vd.jade-hs.de**
- Username: [default login](#) (form: ma1150)
- Password: <your password>
- Domain: HS-WOE

Linux

VMware Horizon Client for Desktops:

- Go to the [VMware Horizon Clients](#) web page.
- In the “VMware Horizon Client for 64-bit Linux” section, click “GO TO DOWNLOADS.”
- Click on “DOWNLOAD NOW”.
- Install the VMware Horizon Client using the following instructions:

```
# Preparations: Fedora 33
sudo -i

cd /usr/lib64/
ls -l libgst*
ln -s libgstreamer-1.0.so.0 libgstreamer-0.10.so.0
ln -s libgstapp-1.0.so.0 libgstapp-0.10.so.0
ln -s libgstbase-1.0.so.0 libgstbase-0.10.so.0
```

```
# Installation:
sudo -i

chmod +x VMware Horizon Client*.bundle

# Uninstall old VMware Horizon client, if present.
./VMware-Horizon-Client*.bundle -u vmware-horizon-client

# Install VMware Horizon client
./VMware-Horizon-Client*.bundle
```

Components:

- Smart Card: enabled
- HTML5 Multimedia Redirection: enabled
- VMware Horizon Virtualization Pack for Skype for Business: disabled
- Real-Time Audio-Video: enabled
- Multimedia Redirection: enabled

- VMware Integrated Printing: enabled
- SerialPort Redirection: enabled
- Scanner Redirection: enabled
- USB Redirection: enabled
- Client Drive Redirection: enabled

- Register and start installed service(s) after the installation: enabled

Scan

- All components should now be successfully installed

Configure your client as follows:

- Horizon Connection Server:
 - **For students: vdi.jade-hs.de.**
 - **For staff: vd.jade-hs.de**
- Username: [default login](#) (form: ma1150)
- Password: <your password>
- Domain: HS-WOE

Apple iOS

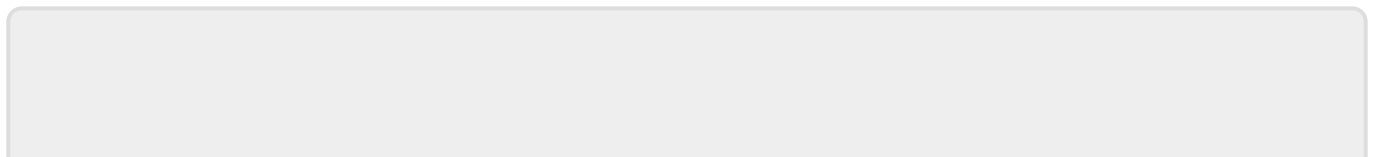

From the Apple AppStore, download the “VMware Horizon Client” app to your Apple iPad/iPhone. Configure the app as follows:

- Horizon Connection Server:
 - **For students: vdi.jade-hs.de.**
 - **For staff: vd.jade-hs.de.**
- Username: [default login](#) (form: ma1150)
- Password: <your password>
- Domain: HS-WOE

Google Android

From the Google Play Store, download the “VMware Horizon Client” app to your Android mobile device. Configure the app as follows:

- Horizon connection server:
 - **For students: vdi.jade-hs.de.**
 - **For staff: vd.jade-hs.de.**
- Username: [default login](#) (form: ma1150)
- Password: <your password>
- Domain: HS-WOE
