

WebApps

The Collaboration Cloud can be expanded through so-called apps with different functions. The university computing centre installed some apps (which seemed useful). However, they are not activated by default.

- [Calendar](#) (not activated)
- [Contacts](#) (not activated)
- [Deck](#)
- [Files](#)
- [News](#)
- [Notes](#)
- [Tasks](#)

You can activate the WebApps if needed under settings/additional settings.de-/activate
