Tasks

Description

With the tasks app, you can

- add and delete tasks, edit their title, description, start and due dates and reminder times, mark them as important and add comments to them.
- share tasks between users.
- synchronise tasks by using the CalDav tool (Each task list is linked to a Nextcloud calendar. To synchronise it with your local client - Thunderbird, Evolution, KDE Kontact, iCal... - just add the calendar as a remote calendar to you client.).

Tasks App
