

# WebDAV

With aid of a WebDAV client (Web-based Distributed Authoring and Versioning), members of the university can comfortably access the files within the Collaboration Cloud of the university **via the file manager**.

Use this access option with care. The control by WebDAV Clients of „File-Locking“ is in some cases not reliable. As a consequence, if more people have parallel access only the version which was saved at last will remain.

## Operating Systems

### Microsoft Windows

The WebDAV client included in the Microsoft Windows operating system unfortunately only works very unreliably, so you must first install WebDAV-capable software and configure it accordingly. The University Computer Centre has therefore procured licences of the WebDAV-enabled software [WebDrive](#). You can find these

- in [WebFiler](#) under JADE-HS - Data (X) / HRZ-Support / WebDrive
- on the [data drives](#) under Data X:\HRZ-Support\WebDrive

Change here to the folder matching your operating system. After the successful installation, please configure it as follows:

#### LicenseWebDrive:

- In the above mentioned folder you will find the file Lizenz.txt, copy the serial number here (to the clipboard).
- In the WebDrive client select Settings → Activate licence
- Paste the serial number (from the clipboard) into the field Registration Code
- Select the button „Activate licence“.

#### Configure WebDrive:

- In the WebDrive client, select „Add Connection“ (the + sign at the top).
- Select the „WebDAV“ card
- Connection name: JADE-HS - Collaboration Cloud (or JADE-HS - CC for short).
- Server address: <https://ccs.jade-hs.de/remote.php/webdav/>
- Username: [default login](#) (form: ma1150)
- Password: <your password>
- Drive letter: W:\
- WebDAV settings → Certificate settings
  - Automatically accept the server certificate: enabled
- Click on „Save as“.

To use, double-click on the newly configured connection.

## Apple macOS

Finder / Go to/ Connect to Server...

- Serveraddress: <https://ccs.jade-hs.de/remote.php/webdav/>
- Connect as registered user/ Name: [Standard Login](#) (form: ma1150)
- Save password in keychain
- Site-Profile Name: JADE-HS - Collaboration Cloud (or short: JADE-HS - CC)

## Linux

Files/ Enter Place

- Place: <davs://ccs.jade-hs.de/remote.php/webdav/>
- Username: [Standard Login](#) (form: ma1150)
- Password: <Your Password>
- Optional: Never forget the password (saves the password in local keychain)
- Optional: Add a bookmark and rename into JADE-HS - Collaboration Cloud (or short: JADE-HS - CC)
