

Network Drive

University members can access the [data drives](#) of the Jade University [network system of computers](#), but **only on campus**. This happens with the aid of a file manager.

Apple OS X

Finder / Connect with Server

- **Data Drive:**
 - Server Address: `smb://hs-woe.de/data`
 - Connect as a registered user / Name: [Domain login](#) (form: `ab1xyz@hs-woe.de`)
 - Save password in keychain
- **Home-Drive:**
 - Server Address:
 - `smb://hs-woe.de/home/c2/<Your username>` for users from WHV
 - `smb://hs-woe.de/home/c3/<Your username>` for users from OL
 - `smb://hs-woe.de/home/c4/<Your username>` for users from ELS
 - Connect as a registered user / Name: [Domain login](#) (form: `ab1xyz@hs-woe.de`)
 - Save password in keychain

Linux

Preparatory Work:

- Installation of the Samba Client (`smbclient` / `libsmbclient`)
- Configuration of the file `/etc/samba/smb.conf`

```
[global]
workgroup = HS-WOE
wins support = no
dns proxy = yes
```

```
smbcontrol all reload-config
```

File-Manager (Files / Nautilus etc.) / File / Connect with Server ...

- **Data-Drive:**
 - Server Address: `smb://hs-woe.de/data`
 - Connect as a registered user
 - Username: [Standard login](#) (form: `ab1xyz@hs-woe.de`)

- Domain: HS-WOE
 - Password: Your password
 - Optional: Never forget the password (password is saved in the local keychain)
 - Optional: Add book mark and rename into JADE-HS - data
- **Home-Drive:**

The Home Drive can not be connected because the used NetApp saving systems are not compatible with the current Linux.

Microsoft Windows

Remark: Drives of devices integrated into the [network system of computers](#) will be connected automatically.

Preparatory Work:

- Start / Computer: Characteristics / Settings for Name of Computer, Domain and Task Force / Change Settings
- Change / Member of: Task Force: HS-WOE
- Reboot the computer

Windows Explorer / Network / Right Mouse Button: Connect Network Drive...

- **Data Drive X:**
 - Drive: X:
 - Folder: \\hs-woe.de\data
 - Establish connection with other login details
 - Windows-Security / Username: [Domain login](#) (form: ab1xyz@hs-woe.de)
 - Save login details
- **Home-Drive Z:**
 - Drive: Z:
 - Folders:
 - \\hs-woe.de\home\c2\ - \\hs-woe.de\home\c3\ - \\hs-woe.de\home\c4\
 - Establish connection with other login details
 - Windows-Security / Username: [Domain login](#) (form: ab1xyz@hs-woe.de)
 - Save login details
