

Google Gmail (Android)

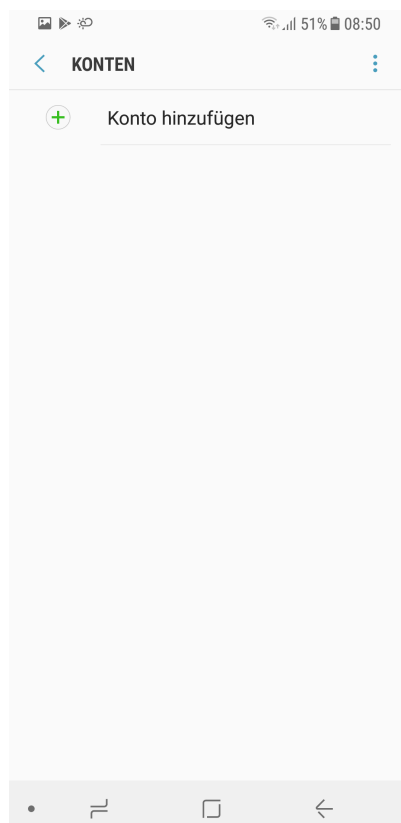

Requirements

- **Operation System:** Google Android 6.x or newer (suggested)
- You own an e-mail account in the **Exchange System of the Jade University**

Setting Up an E-Mail Account

To set up a new e-mail account on your android device, go to **Settings**. Depending on the producer, you have to click:

- **Cloud and Accounts**, then **Accounts**
or
- **Accounts and Synchronisation**
or
- **Accounts**

Click on **Add Account** and, after that, on the account type **Exchange**

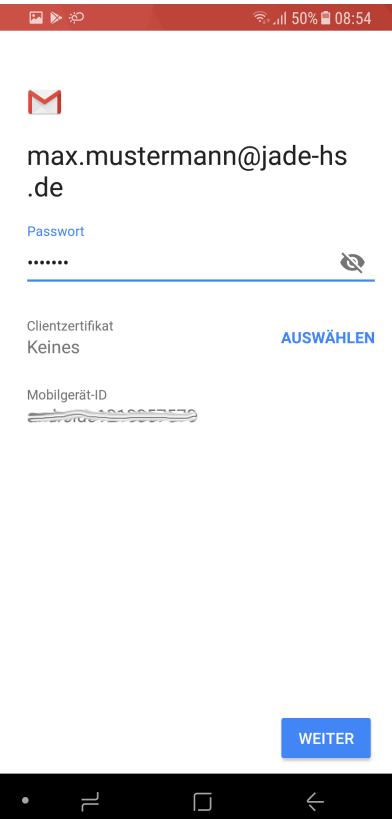

In the set-up assistant, you need to type in your **e-mail-address** and click on **Next**.

The screenshot shows the Gmail setup interface on an Android device. At the top, there's a red status bar with icons for signal, Wi-Fi, and battery (50%), and the time 08:53. Below the Gmail logo, the heading "Meine E-Mail-Adresse hinzufügen" is displayed. A blue link "Geben Sie Ihre E-Mail-Adresse ein." is followed by a text input field containing "max.mustermann@jade-hs.de". At the bottom, there are two blue buttons: "MANUELL EINRICHTEN" and "WEITER". A black navigation bar at the very bottom contains standard Android icons: a dot, a home button, a square, and a back arrow.

In the next step, type in the password of your Exchange account and click on **Next**.

The screenshot shows the next step in the Gmail setup. The status bar at the top shows the time as 08:54. The Gmail logo is at the top, followed by the email address "max.mustermann@jade-hs.de". Below it, the label "Passwort" is above a masked password field (dots) with an eye icon to toggle visibility. Underneath, there's a section for "Clientzertifikat" with the value "Keines" and a blue "AUSWÄHLEN" button. Below that is the "Mobilgerät-ID" field with a masked input. At the bottom right, there is a blue "WEITER" button. The same black navigation bar with Android icons is at the bottom.

In the next step, complete by typing in the missing detailed information, then click on **Next**:

- **Username** (PC-login) in the form **loginname@hs-woe.de** (e.g. ma1234@hs-woe.de)
- **Server**: mail.jade-hs.de

- **Port:** 443
- **Security Type:** SSL/TLS

WEITER

Provided, all data have been entered correctly, a window with a **remote safety warning** will appear. Just confirm it by clicking **OK**.

GERÄTEADMINISTRATOR

E-Mail

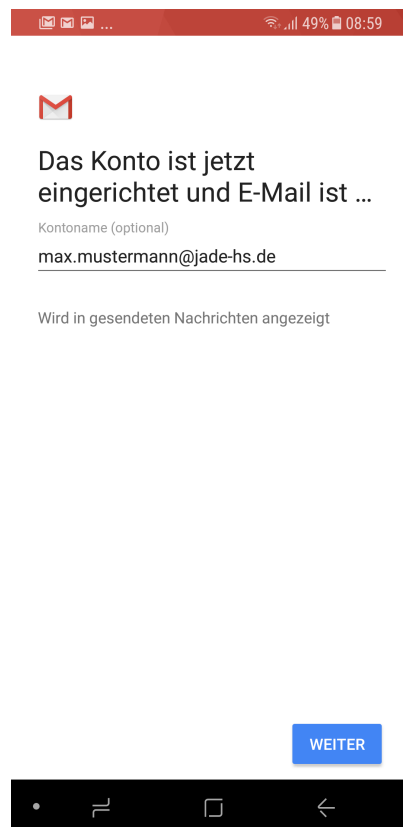

Der Server mail.jade-hs.de fordert die Erlaubnis zur Remote-Steuerung einiger Sicherheitsfunktionen auf Ihrem Android-Gerät an.

Aktivieren des Administrator ermöglicht es Gmail, die folgenden Vorgänge auszuführen:

- **Alle Daten löschen**
Alle Daten auf dem Telefon durch Zurücksetzen auf Werkseinstellungen ohne Warnung löschen.
- **Passwortregeln festlegen**
Länge und Buchstaben der Passwörter für Bildschirmersperrung steuern
- **Bildschirmersperrung überwachen**
Anzahl der falschen Passwort-Eingaben beim Entsperren des Bildschirms speichern und Telefon sperren oder alle Telefondaten löschen, wenn zu oft ein falsches Passwort eingegeben wurde.
- **Bildschirm sperren**
Art und Zeitpunkt des Sperrbildschirms festlegen
- **Ablaufzeitpunkt für das Passwort**

ABBRECHEN **AKTIVIEREN**

To conclude, the assistant requests the necessary access authorisation of the app. Click on **Activate** to finish setting up the account.

To finish, the assistant confirms „The account is now set up and the e-mail is...“.

After closing the assistant by clicking **Next**, a connection to your Exchange account will be established in the background and the Exchange data will be synchronised with the selected apps.
