Media Systems

The devices from Extron are used as media systems in the HRZ. These offer the following advantages:

- Uniform operating concept
- Complete control of the projector on-site (no remote control required)
- Access to the master place of the HRZ pool
- Access via VGA and HDMI for notebooks
- Access via the network using an app or software

Service:

Button	Description
ON/OFF	Turn the projector on and off
VGA	To display your device via VGA cable
HDMI	To display your device via HDMI cable
PC	To display the master place in the HRZ pool room
ShareLink	To display your device via app/software

The media controls are currently available in the following rooms:

Room	ShareLink access	Contact person
ELS, W52 203	ShareLink	HRZ
